For over 60 years, The Jordon Group has led the way in fit-out, refrigeration, and air conditioning - delivering expert solutions to businesses across the UK and beyond.

Rooted in quality craftsmanship, reliability, and exceptional customer care, we've evolved from a family-run business into a nationally recognised industry leader.

Our success is driven by a commitment to innovation, efficiency, and exceptional service. From independent retailers to multinational brands, we provide tailored solutions designed to enhance operational performance and customer experience. Whether it's a full-scale fit-out, bespoke refrigeration systems, or energy-saving technology, we ensure every project is executed with precision and professionalism.

Though we've expanded and evolved, our values remain unchanged—offering the same personal service, expertise, and dedication that have defined us since 1965.

Fit-out

Our nationwide shopfitting team manages every stage of your project in-house—from CAD-driven design and bespoke joinery to ceilings, flooring, plumbing, electrics, lighting, security, signage, and counters. This fully integrated approach ensures your fit-out is delivered on time, on budget, and with minimal disruption.

A dedicated design consultant guides you through the process, while our skilled craftsmen maintain tight cost control and uncompromising quality. The result? A tailored, space-maximising fit-out that enhances customer experience for retail, leisure, and hospitality brands.

Designed, built & delivered by our experts

Commercial refrigeration

The Jordon Group designs, installs and maintains remote and integral refrigeration, tailoring service and preventative maintenance programmes that maximise efficiency and equipment life; our range spans chilled and frozen multidecks, island cabinets, semi-vertical units, vertical glass-door fridges and freezers, walk-in cold rooms, compact back-of-house storage and food-to-go displays, all built to hold perfect temperatures, cut energy use and present products with clarity.

CHILLED DRINKS & SNACKS

Refrigeration cabinets

As industry leaders in commercial refrigeration, we supply premium refrigeration cabinets from the industry's most trusted manufacturers. Each unit is carefully selected and tailored to your business needs, combining exceptional build quality with the latest energy-saving technologies. The result is reliable, high-performance refrigeration that enhances product display, preserves freshness, and reduces operational costs.

With over 60 years of expertise in HVAC solutions, we understand that achieving the perfect indoor climate is about more than just heating and cooling.

At the Jordon Group, we provide one of the most extensive ranges of heating, ventilation, and air conditioning systems in the UK. We offer tailored solutions from industry-leading brands such as Daikin and Mitsubishi, ensuring optimal comfort and efficiency for offices, commercial buildings, leisure facilities, retail spaces, and hotels.

With cutting-edge energy-saving technology, our systems not only enhance your environment at the touch of a button but also help reduce energy costs.

HVAC solutions for every environment

Refrigeration & HVAC maintenance plans

Regular servicing of your refrigeration and air conditioning systems is essential to prevent breakdowns, extend equipment lifespan, and maintain peak efficiency.

The Jordon Group offers tailored preventative maintenance plans - backed by rapid response times and nationwide emergency call-out support - so your systems stay reliable, efficient, and compliant all year round.

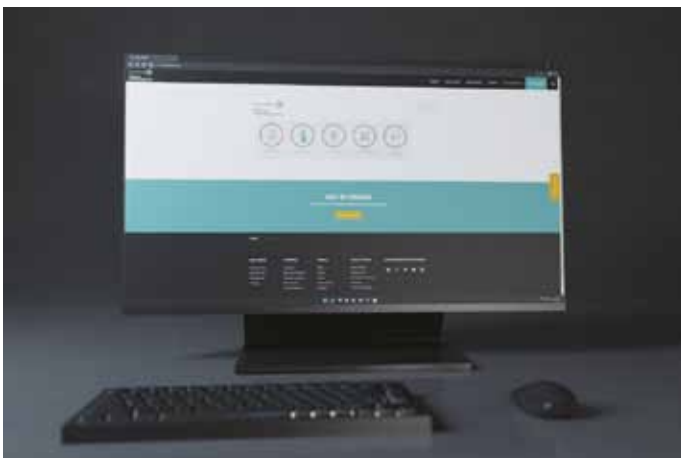

Energy-Smart Solutions for a Sustainable Future

At The Jordon Group, we help businesses manage energy use with intelligent refrigeration and HVAC systems that reduce consumption, cut costs, and support sustainability goals.

Our solutions integrate the latest inverter technology, advanced RDM controls, and smart energy-saving strategies to deliver immediate performance improvements.

Whether it's a new installation or a system upgrade, each project is tailored to optimise long-term savings while ensuring reliability and performance remain uncompromised.
